## NOVEMBER 13 TO 18 TO BE BIG WEEK IN MEXICO

State Sunday School Convention, the Poultry Show and Emmons' Big Sale All in That Week.

**EACH WILL DRAW CROWDS**  
Convention Will Bring Many Sunday School Workers and Sale and Poultry Show Will Attract Many People.

The week of November 13 to 19 will be one of the most eventful weeks in Mexico history.

On the fourteenth, fifteenth and sixteenth the Fifty First Annual Convention of the Missouri Sunday School Association will be in session here, bringing to Mexico hundreds of Sunday School workers from all parts of the State and many of those prominent in Church and Sunday School work from all parts of the country. All the available meeting places will be utilized for the committee meetings and for conferences of the various departments of the association. It will also be necessary to obtain board and lodging for the many persons who will be in attendance at this convention. Already the various routine meetings necessary to such a convention have been assigned meeting places in the various church buildings in the city and the buildings committee, whose work it is to provide places for the meetings, have sent notices to the various churches, informing them on what dates and for what meetings the building will be required.

The date of November 14 to 16 has been chosen as the date of the big annual Poultry Show, to be given by the Mexico Poultry Association. The officers of this association say the plans already made and those under way will make this one of the biggest poultry shows in the State and that it will far surpass any poultry show ever before given here. The Catalogue will be larger than ever before and the premium list, although not yet complete, is now larger than in previous years. It is planned to make this show such that poultry fanciers from all parts of the State will feel it to be to their interest to attend.

The Thirtieth Annual Shorthorn Sale held by S. P. Emmons & Son will be held here on November 14. At this sale will be offered 60 head of pure bred Shorthorns; 40 cows and calves, and 20 young bulls. The S. P. Emmons & Son's Annual Shorthorn Sale is now a well-known institution and will draw cattlemen from all parts of the State and country.

With the large number of Sunday School workers, poultry fanciers and stockmen, who will be in Mexico the week of November 13 to 18, to attend the various things of interest to them, this week will be one of the busiest and most eventful weeks that Mexico people have seen for years.

## MEXICO WOMEN VICTIMS OF NEWEST GRAFT

Joined Endless Chain of Ten Cent Contributors for the Purpose of Receiving New Silk Skirt.

**FEDERAL OFFICERS AFTER 'EM**  
Officers of Organization are Reported to Have Hidden Out for Fear of Suspected Arrest.

It was learned Tuesday that quite a number of Mexico women fell victim to the endless chain graft being worked by a firm of Minneapolis crooks, who are now hiding from the Federal officers. The following dispatch tells of the scheme and the present status of affairs:

**MINNEAPOLIS, Minn., Oct. 24.** — Many thousands of letters, each containing 10 cents, are pouring into various parts of the country, who have joined the "endless chain" scheme promoted by the so-called National Brokerage Exchange.

Federal agents are searching for officers of the "exchange," who are wanted for using the mails to defraud. A room in a local business block, to which all the letters are addressed, was suddenly vacated three weeks ago, the authorities say.

To every woman who would send 10 cents in silver and write five friends urging them to join in the chain, "exchange" promised a "new 1917 model silk petticoat."

The volume of mail for the "exchange" is rapidly growing, and Postmaster Purdy, "and today we received 25,000 letters inclosing 25,000 dimes. Thousands of the letters have been returned to the writers, but a large majority carry no return marks and as a result the dead-letter office becoming clogged. Other mail channels of the local office are choked daily by the influx of mail for the "exchange."

## COMMITTEE OF A THOUSAND TO MEET IN KANSAS CITY

Missourians Will Gather November Twenty-Fourth to Plan Centennial of This Great State.

**R. M. WHITE TO PRESIDE**  
Hundred Years of Statehood to be Remembered by the Program Upon Which are Prominent Men.

The Centennial Committee of One Thousand, named by the State Historical Society, in preparation for the celebration of the centennial of the admission of Missouri to the Union, has been asked to meet at the Hotel Muehlebach in Kansas City, November 24 and 25. R. M. White, editor of the Mexico Ledger, President of the State Historical Society, will preside.

On Friday, November 24, beginning at 9:30 o'clock, addresses of welcome will be given by George H. Edwards, Mayor of Kansas City, Charles E. Farth, President of the Kansas City Commercial Club, and J. B. White, President of the Missouri Valley Historical Society. Jay L. Torrey, of Fruitville, will respond. Five-minute addresses on permanent organization will be given by George H. Forsee and W. T. Bland, of Kansas City, George A. Mahan, of Hannibal, Louis T. Golding, of St. Joseph, Louis Houck of Cape Girardeau, J. B. Swift, of Kansas City, and others.

At 2:30 o'clock Walter B. Stevens will deliver an address on Missouri's centennial. Addresses will also be made by Governor Elliott W. Major, Speaker Champ Clark, Senator James A. Reed and Senator W. J. Stone. At the evening sessions, at 8 o'clock, the committee will meet in the rooms of the Kansas City Commercial Club, in the Board of Trade Building. Addresses will be given by former Governor Herbert S. Hadley and W. P. Borland, both of Kansas City, and E. W. Stephens, of Columbia.

**Executive Committee to Report.**  
Saturday, November 25, at 9:30 o'clock, a report of the executive committee will be heard in the Hotel Muehlebach. Five-minute addresses will be made by E. M. Clendenberg and Hale H. Cook of Kansas City, J. H. Bothwell of Sedalia, Theodore Gary of Macon, and W. O. L. Jewett of Shellina and others.

The centennial movement was begun at the annual meetings of the State Historical Society on December 16, 1915, in Columbia. A committee of five was appointed to select a larger committee to represent the industries, vocations, occupations and organizations of the state. The following men constitute the committee: Walter B. Stephens, St. Louis; Purd B. Wright, Kansas City; Jay L. Torrey, Fruitville; Walter Williams, Columbia; R. M. White, Mexico; Chas. Horn-off, Mexico; and Floyd C. Shoemaker, secretary.

## GOVERNORS OF DRY STATES REFUTE CANARDS

Capper, Governor of Kansas, Tells What Prohibition Has Done for His Great State.

**TESTIMONY FROM THE SOUTH.**  
"Business Disaster" Cry is Routed by Facts From Those in Position to Know Real Truth.

In five different states where prohibition campaigns are being waged the liquor interests are filling the newspapers with advertisements and sowing the country with circulars telling how prohibition has ruined Kansas. They tell that the jails, insane asylums and poorhouses are overflowing, that there is more crime in Kansas than in any other state, that the schools are empty, that taxes are higher, that farm lands are lower in price, that population is falling off and that a wall of general hard times hangs over the state.

Governor Capper, of Kansas, says of his own State: "I think one of the greatest blessings ever bestowed upon this state, and the law which is doing more to make good men and women and to bring prosperity and happiness to the people of Kansas, is the amendment to the constitution prohibiting the traffic in intoxicating liquors."

"It may fairly be said that prohibition has been on trial in Kansas for a sufficient time to give adequate evidence of its merits and demerits. And at the end of nearly a generation under prohibition in this state, it may truthfully be said that the Prohibition Law has never been so well enforced as now, and never so generally approved by the people of the state."

"The value of the Kansas orchard, field and live stock crops of 1915 was more than 652 million dollars. I do not claim that the Prohibition Law is the sole cause of this great agricultural wealth, but surely this wealth is evidence that prohibition does not destroy business and the property of the state, as the liquor interests so ardently contend."

"And prohibition does prohibit Kansas saves 30 million dollars every year directly through prohibition in money saved that would be spent for drink if saloons existed in this state. The indirect gain is not subject to compensation, but is certainly greater still."

"In short, prohibition is an unequalled success in Kansas, and our people would not think for one moment of going back to the saloon."

**"Very respectfully,"**  
"Arthur H. Capper, Governor."

Tom C. Rye, Governor of Tennessee, says: "Highest amount of revenue received from liquor traffic in one year since 1910, \$334,000. We have lost it and we the glad and submit this as proof of prohibition in Tennessee. Debt of Tennessee is largely relic of Civil War and days of reconstruction and none of it the result of prohibition. Tennessee is spending 1-3 of its gross revenue for school purposes, is building more and better school houses, more and better roads, taking better care of her insane and other unfortunate than ever in her history. Since the forward law enforcement of the past year crime has been reduced in our cities. The streets are free or drunkenness and safe for women and children. Everybody who wants it has a job and deposits have increased enormously, and all desirable property formerly occupied for saloon purposes has been absorbed for legitimate business and none save older citizens can point out where saloons were. The atmosphere is cleaner, property more valuable, life safer, people more prosperous, and happier, public morals upon a higher plane and churches more progressive and executive under prohibition. These facts cannot be emphasized too strongly."

H. H. Hatfield, governor of West Virginia, sets forth the sentiment of his fellow citizens thus: "There has been wonderful improvement in general moral and industrial conditions in West Virginia under prohibition. There has been great decrease in number of arrests made in this state, also in number of persons admitted to insane asylums. I am thoroughly convinced that prohibition is meritorious and am sure if West Virginians voted again upon proposition there would be no question but the people would indicate people are heartily in favor of it. Personally, I am unhesitatingly in favor of prohibition. The situation in this state has been grossly misrepresented by the liquor interests."

# DELCO-LIGHT

## ELECTRICITY FOR EVERY FARM

Electric light is rapidly becoming universal in its adaptability to the requirements of civilization.

First, it was introduced in the larger cities for street lighting.

That was nearly forty years ago.

Then the incandescent light came and city homes were electrically lighted.

Next it was adapted to the uses of railway trains and steamships.

And five years ago it became the universal light for automobiles.

Now comes the Delco-Light bringing electricity with its efficiency and economy to the suburban and farm homes.

The cycle is complete.

Electricity is easily and cheaply available anywhere. It is the universal source of light and power.

Delco-Light consists of engine, generator, and switchboard in one compact unit—and long-lived, efficient batteries specially designed for use with this plant.

## BRICK PLANT WOULD PURCHASE LAND FROM CITY

Rapid Growth of the A. P. Green Fire Brick Company Necessitates a Larger Dumping Ground.

**LA CROSSE PERMIT DENIED**  
Permission Denied La Crosse Lumber Company to Build on Property on Liberty Street.

At the regular meeting of the City Council held at the City Hall Monday night all Councilmen, except Mr. Ball, were present. Mr. Ball was out of the city. R. H. Gray, Assistant Manager of the A. P. Green Fire Brick Company, appeared before the Council in behalf of the Brick Plant.

Mr. Gray outlined the growth of the brick plant in the past year and stated that still larger growth was expected in the coming year. This growth, he said, necessitated the use of a larger dumping ground, and that the plant desired to purchase from the city the west half of the seven and one-half acres of ground owned by the city and adjoining the ground owned by the plant.

No definite action was taken by the Council on this offer Monday night, but the Council will go over the ground in question with officials of the plant Wednesday afternoon.

W. A. Hendrix came before the Council and stated that he had erected a small shed for the use of his coal company on the triangular piece of ground owned by the city and situated west of Calhoun street. Mr. Hendrix wanted to know if there was any objection to this action on the part of the Mayor or the Council. Mr. Harrison representing the Haas-Lieber Co., came before the Council and objected to the establishment of a coal yard on this ground, which adjoins the property of the grocery company, claiming that it would be a nuisance to the company. No action on this question was taken by the Council.

The committee, consisting of Councilmen Hook, Lewis and Eller, which had been appointed to investigate the

request of the La Crosse Lumber Co. for a permit to erect a building on their property on Liberty street, reported that, as the building would be within the fire limits of the city and that the specifications submitted failed to comply with Ordinance No. 15 of the city, that permission be withheld until this ordinance was complied with. This report was accepted by the Council.

The ordinance introduced by Mr. Armstrong relating to safety of public buildings, was given its first reading. The ordinance previously introduced by Mr. Wood, ordering a sewer to be laid on Liberty street, was brought up and Mr. Hook moved that it be laid over until the next meeting. The motion was carried by a vote of six to one, Mr. Wood voting no.

Charles Dobyns came before the Council and asked permission to erect a metal-clad building on the Arnold lot on West Promenade street for a lunch stand. Mr. Hook moved that this permit be granted. The motion was defeated by a vote of five to two, Messrs. Ball and Hook voting yes.

Mr. Johnson's motion that the proposed alley through block 11 of Original Mexico be referred to the street and alley committee was carried.

Mr. Lewis, chairman of the finance committee, presented bills to the amount of \$123.90.

**Watch for Bands on Wild Ducks.**  
If you kill or capture a wild duck bearing an aluminum band around one leg, having a number on one side and on the other a statement attesting that the United States Department of Agriculture, or the Biological Survey, be notified you are requested to send this band at once to the Bureau of Biological Survey, Washington, D. C.

This band, if accompanied by a statement as to the date, place and circumstances under which the bird was taken, will be of service to the survey in its efforts to determine the longevity of individual ducks and the routes of migration of the species. The bands are being attached to considerable numbers of wild duck of several species which have been cured of the duck sickness prevalent around Great Salt Lake, Utah, and there released. The department is particularly anxious to secure reports from these birds to determine their complete recovery from this malady, which has killed hundreds of thousands of ducks in Utah.

**Wheat and Flour Prices.**  
To the Editor of the Post-Dispatch.  
I noticed in your paper last week that you stated that flour was higher than since the Civil War, which closed in 1865. Please look at the records and find that in the spring and summer of 1876 flour retailed at \$21 per barrel and wheat went to \$4 per bushel, potatoes \$2.50 per bushel, cotton cloth 33 cents per yard by the bolt, etc. Flour broke in one day that year \$4 per barrel. Other papers have made the same statements as yours in prices. Please enlighten the public and oblige.
